

# BioLite FlexLight

## Tap On/Off/Dim

Turn lights on with the tap of a finger. Press and hold to dim easily to desired levels.

## Flexible Neck

Spotlight a variety of tasks without having to move your power source.

## USB-Friendly

Works with any USB Port including BioLite CampStove and BaseCamp.

## Low Draw

Requiring very little power, a great light for power outages.

The FlexLight is a portable, pliable USB gooseneck for quick, controlled light. Whether it's lighting a cooking surface or brightening your workspace, the FlexLight is a fast and easy way to provide functional task lighting. Pair with the BioLite CampStove, BaseCamp or KettleCharge for concentrated light at the tap of a finger.
