

## LifeStraw Flex Gravity bag

LifeStraw Flex is a 2-stage filter that exceeds the NSF 53 drinking water standard for reduction of lead while also reducing chemicals and removing bacteria and parasites.

It includes a 1 Gallon gravity bag and it's ideal to filter water while camping and hiking.

It can be used in 4 different ways: as a personal straw, with the included gravity bag, or attached to a plastic water bottle or hydration bladder.

## Features & Benefits

- Removes bacteria and parasites
- Reduces chemicals, including chlorine
- Reduces heavy metals, including lead
- Improves taste and odor
- Versatile for 4 uses in 1 product
- Compact, easy to use and carry
- Recyclable
- Replaceable carbon filter

Use as a gravity filter

Adaptable to plastic water bottles

Adaptable to hydration bladder

Use as a personal straw

# Technology

## 2-stage filtration

Uses advanced hollow fiber membrane technology (0.2 microns) to remove waterborne bacteria and protozoa up to 2,000 liters (500 gallons)

Uses replaceable activated carbon capsule to reduce heavy metals (including lead) exceeding the NSF 53 standard up to 100 liters (25 gallons)

# Technical specifications

## Filtration:

- Removes 99.999999 % of bacteria
- Removes 99.999 % of parasites
- Reduces organic chemical matter (pesticides, herbicides, VOCs)
- Flow rate: 500 ml/min – 30 l/h
- Exceeds NSF 53 standard for reduction of lead and other heavy metals
- Exceeds NSF 42 standard for chlorine reduction
- Exceeds US EPA drinking water standards for bacteria and parasites
- Microbiological filter lasts up to 2,000 liters / 500 gallons
- Carbon capsule lasts up to 100 liters / 25 gallons

## Product characteristics:

Weight: Filter + gravity bag + hose:  
6.94 ounces / 197 gr

## FILTER

- Size: 163 mm / 6.4 in
- Microbiological filter pore size: 0.2 micron
- Replaceable carbon capsule

## GRAVITY BAG

- Capacity: 3.7 L / 1 gallon
- TPU hose length: 27.55" / 700 mm
